

Quality Policy

EINES, a company dedicated to the development of industrial software, process automation and artificial vision systems, has a Quality Management System, by means of which it commits itself to fulfill the requirements specified by the clients, the legal and regulatory ones and other requirements that the organization can subscribe, and to proceed to the continuous improvement of the Quality Management System.

EINES assumes the commitment to create a company culture in which each person is responsible for the quality of the work he or she carries out through the continuous improvement of the processes, products and services offered to its clients and to make it known, understood, applied and maintained by all the levels in the organization of the Company, looking for the excellence of our products and services based on the requirements of the ISO 9001 standard and the fulfillment of the Quality Objectives.

To this end, the company is committed to:

- Improve coordination between the company's departments (internal communication).
- Improve staff training.
- Improve the level of quality offered and the reliability of the work carried out.

The heads of the various departments of the company recognise and undertake to disseminate among the staff of their department the guidelines formulated by the company's management in terms of Quality.
